Outdoor Rugs
2022

ATTENTION: There will be no rug samples until the end of April.

About Vondom

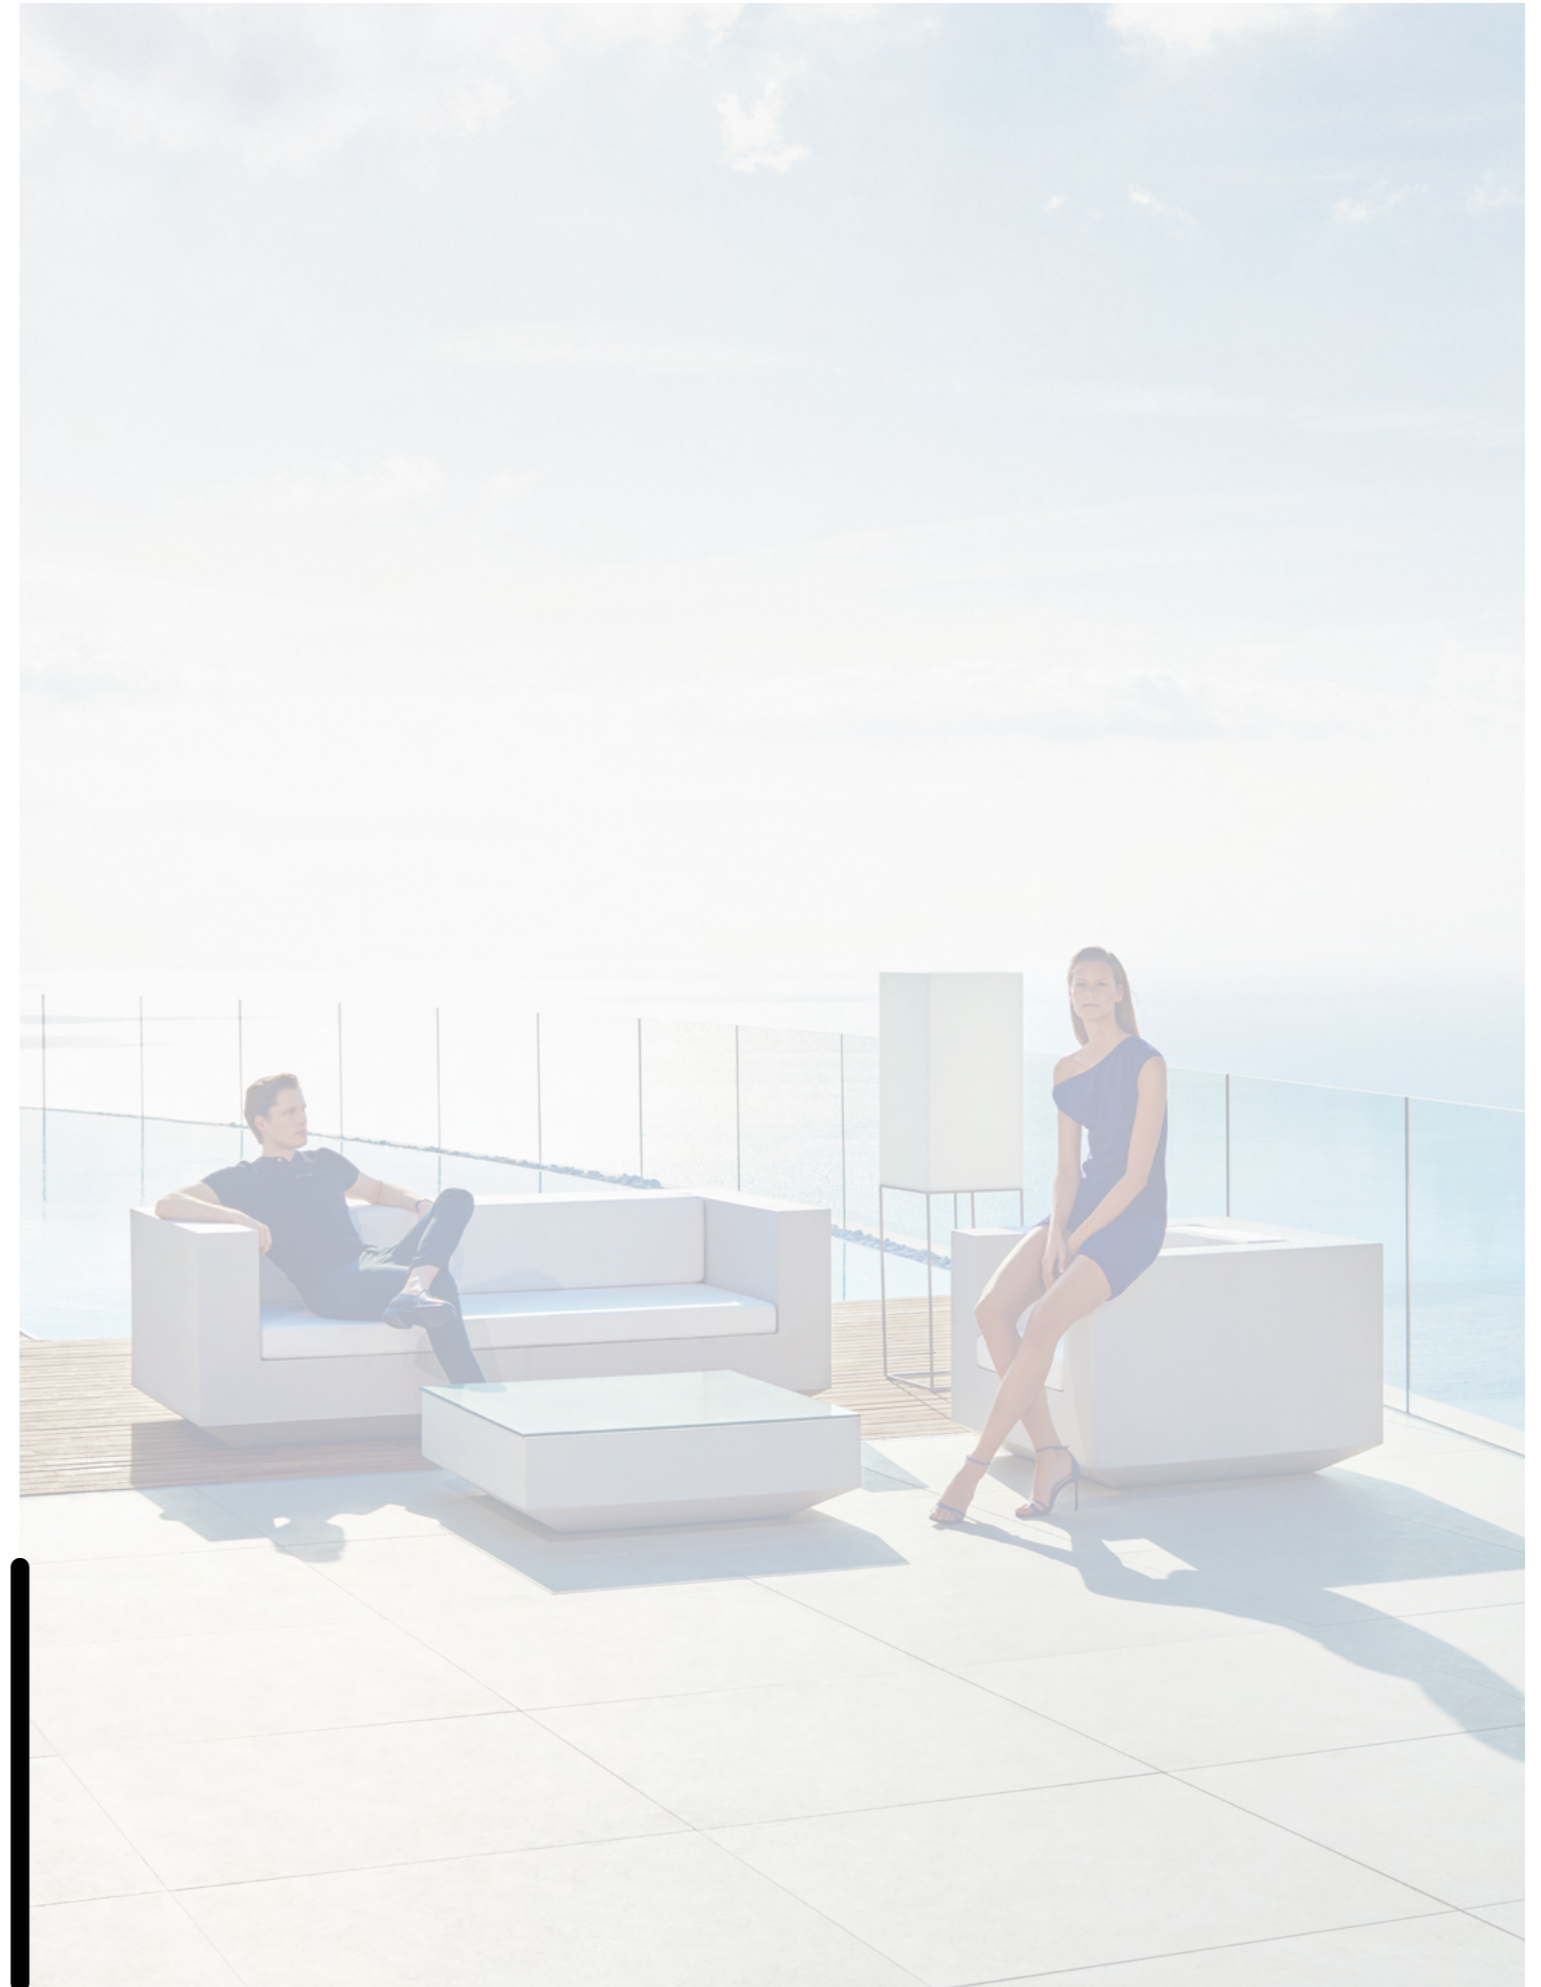

Guided by a firm commitment, passion and respect for design, Vondom has become one of the most important outdoor furniture design brand in just a decade.

Vondom's challenge is to give life to each of our pieces, achieving a natural dialogue between environment and form. The result is the creation of spaces that reach a new dimension, where simplicity is the new sophistication.

We understand design as a point of boldness-changing and chameleon-like. It is a tool that allows us to innovate without losing functionality.

To achieve special effects and finishes for some of our colours, vondom keeps researching and developing new materials and process. Thanks to it, Vondom's material range is continuously growing reaching all quality standards and improving the life time and the maintenance of the products.

Vondom is certified with ISO 14001 and ISO 9001, that certify a fully harmless and quality production process. Materials used in our collections are 100% recyclable.

More Sustainable.

Vondom keeps innovating and developing new techniques to produce cutting-edge new products.

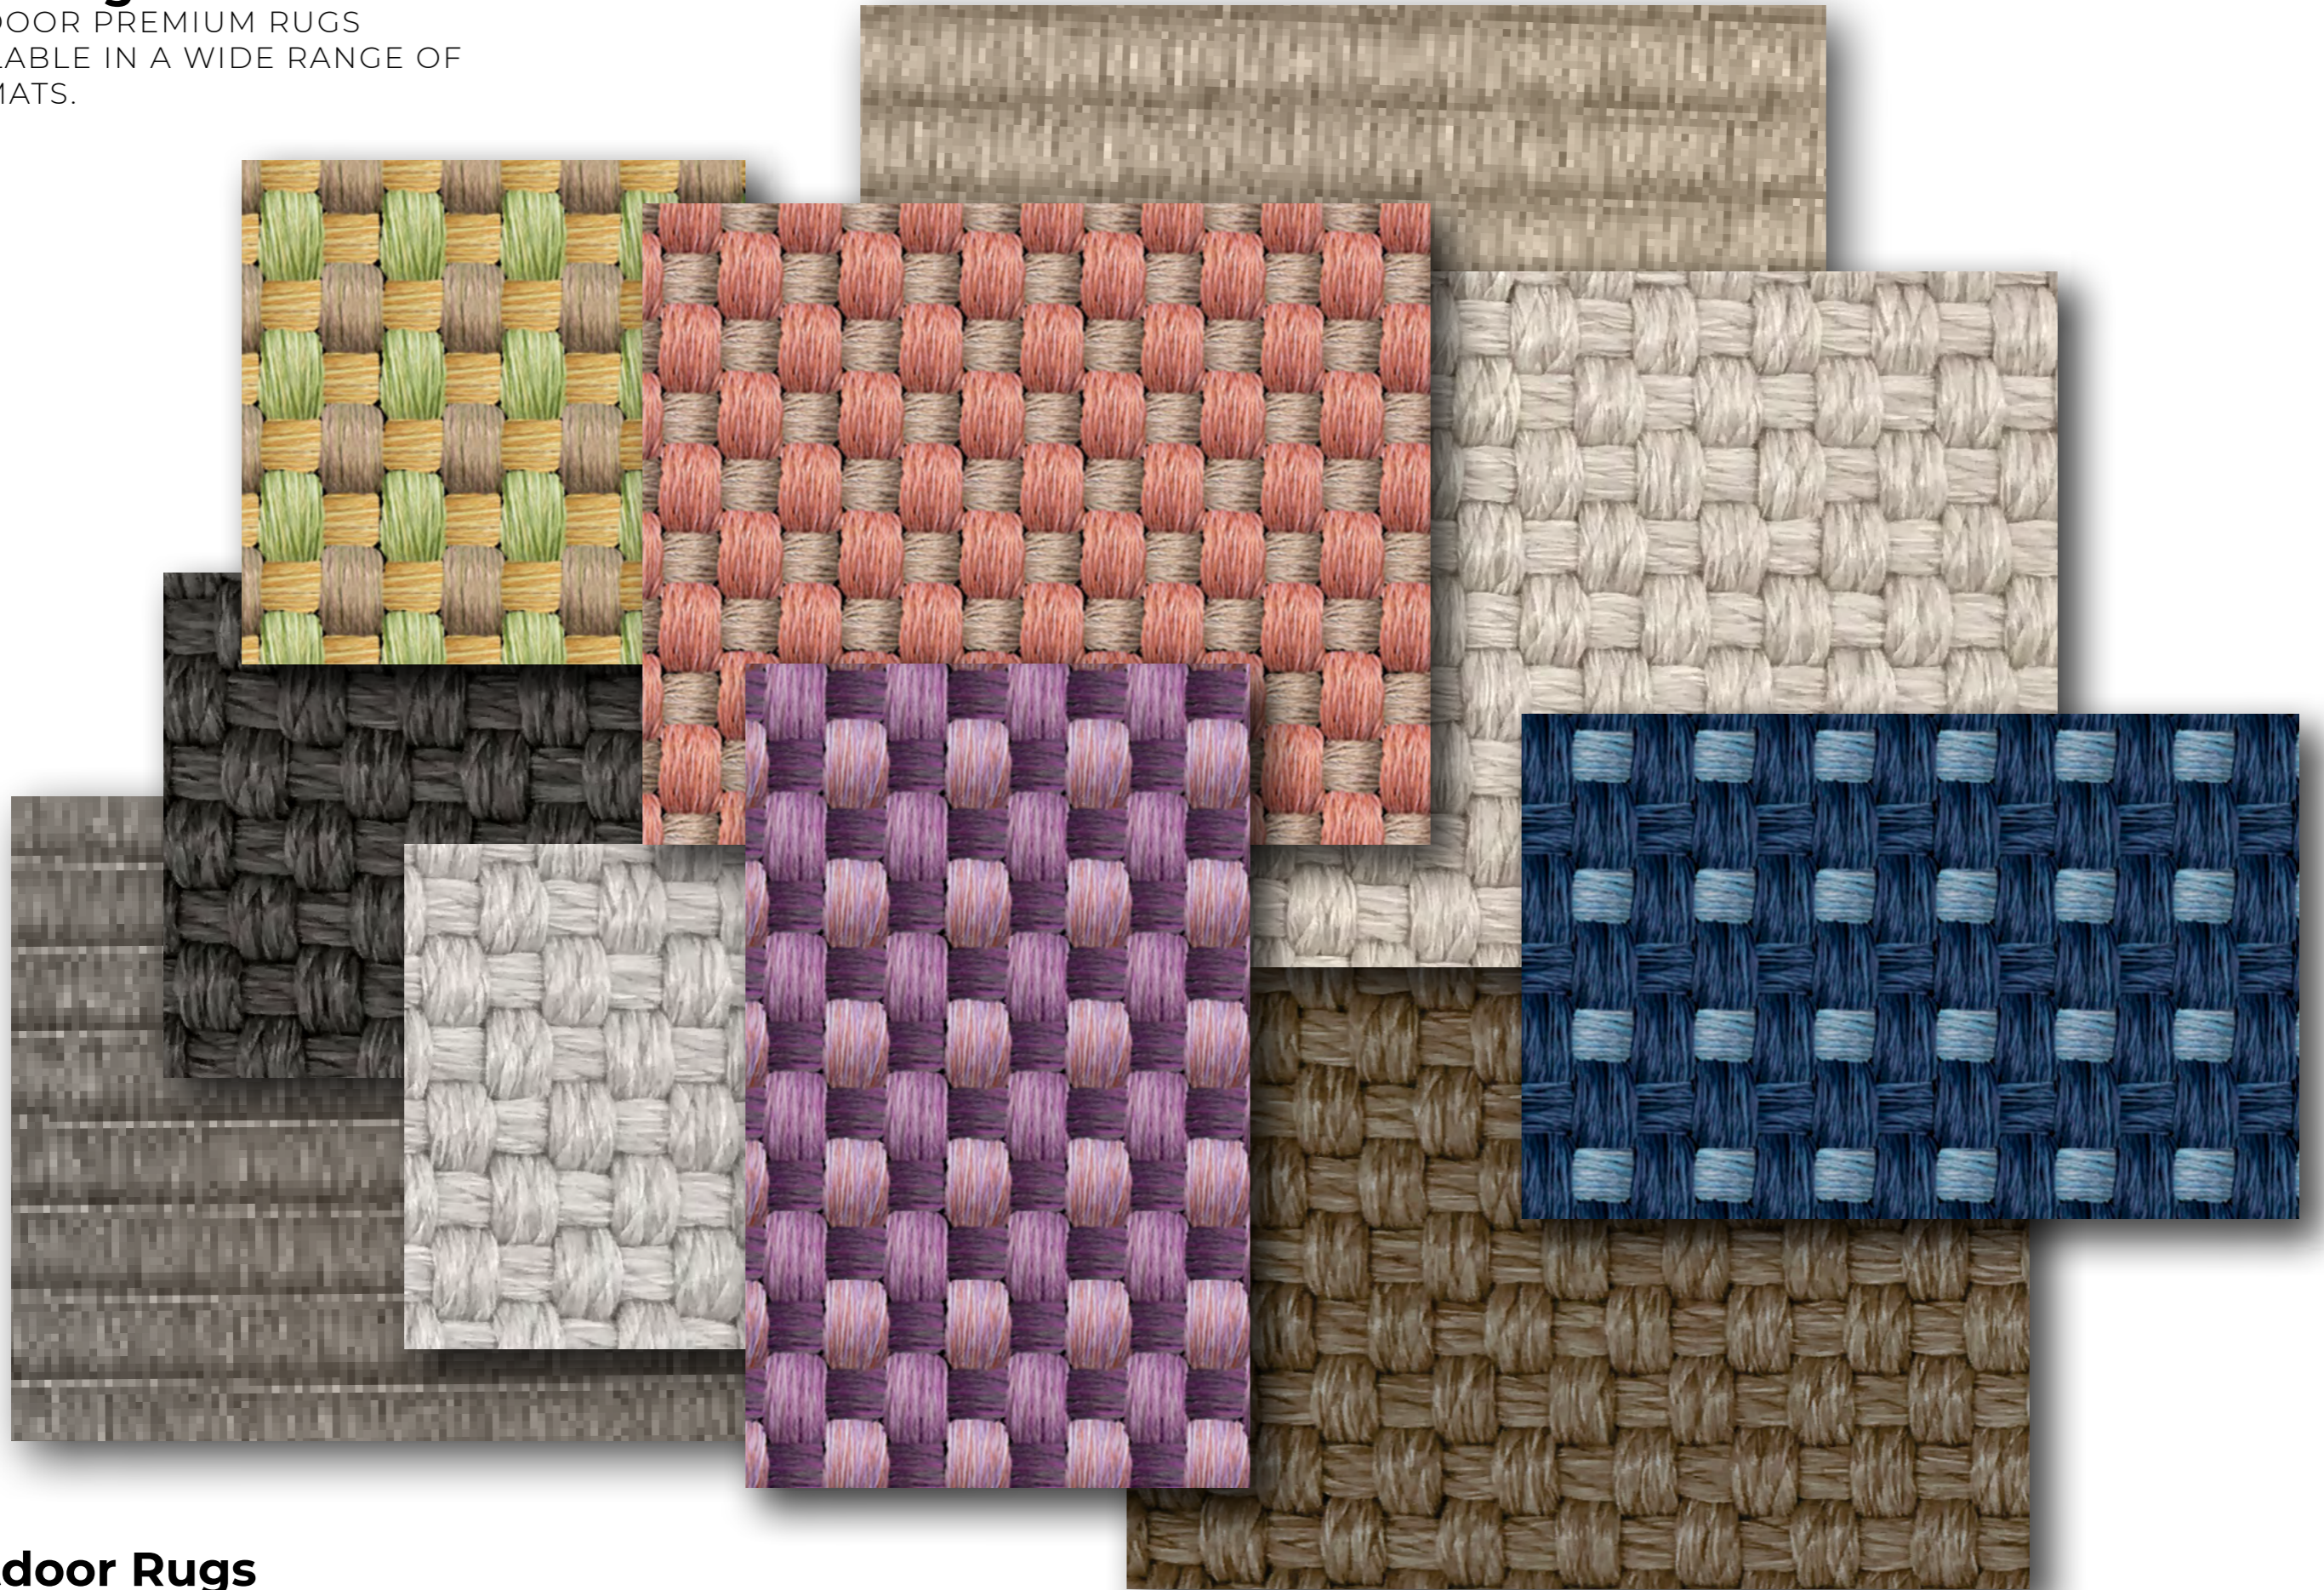

The outcome of these efforts will come to life before the next season, with products full of consciousness, high-ended details & design.

Our drive to make the future more sustainable
Made-to-measure rugs created using plastic bottles recovered from the oceans.
